

CIVIL AIR PATROL'S MARS PROGRAM

Building aerospace leaders for tomorrow

Civil Air Patrol is
Making Aerospace Real for Students
and teachers too!

Civil Air Patrol is the Auxiliary of the U.S. Air Force and, as such, has three main missions to serve America: Aerospace Education (AE); Cadet Programs for youth ages 12-20; and Emergency Services for disaster relief, search and rescue, and homeland security. The AE mission is to educate, inspire, and instill an appreciation for and an understanding of aerospace in our world. CAP is helping develop the aerospace workforce for the future!

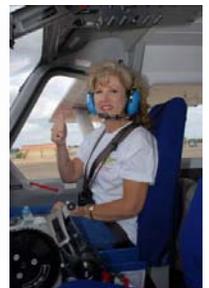

Educators can receive FREE aerospace resources from CAP by joining as an Aerospace Education Member (AEM). CAP AEMs do not wear uniforms, attend regular CAP

meetings or test for promotion as traditional CAP adult and cadet members do. The AEMs share the exciting aerospace theme with young people to promote science, technology, engineering and math (STEM) subjects and careers. **For more information, visit www.capmembers.com/ae or contact ae@capnhq.gov.**

The CAP AE program assists teachers in teaching ordinary subjects in extraordinary ways!

Through CAP's award-winning MARS program, teacher members are offered:

- **Over 30 FREE** national academic standards-based aerospace education materials to promote STEM subjects and careers
- Participation in **FREE AE Excellence (AEX) Award Program**, wherein educators incorporate aerospace education into their curricula and earn a free teacher plaque and student certificates
- Eligibility to apply for **\$250 grants** for aerospace project and program integration to invigorate the classroom
- **FREE** 675-page aerospace textbook and teacher's guide
- **Complimentary** aerospace education quarterly newsletters and monthly e-newsbriefs full of useful current AE information
- **FREE Teacher Orientation Program (TOP) Flights** in CAP aircraft

Become an Aerospace Education Member (AEM) of CAP today!

This unique CAP membership category is designed for educators or others involved in promoting aerospace education in classrooms, home schools, museums, or other youth organizations. As a 501(c)3 nonprofit, humanitarian corporation, CAP more than returns the one-time **\$35 membership dues** in free programs, products and services.
