

Aerospace Education Newsbrief

from

CIVIL AIR PATROL

The purpose of CAP's AE program is to infuse the aerospace theme in youth development programs to perpetuate an interest in and knowledge about science, technology, engineering, and math (STEM) subjects and careers...

CAP provides a monthly AE e-Newsbrief for those interested in promoting aerospace/STEM education to the membership of CAP and to the general public. This is an easy one-stop location for current AE/STEM news, contests, grants, web sites, workshops, and information to share with your organization. It is hoped that at least ONE informational item will be useful in inspiring the next generation of aerospace enthusiasts and national STEM workforce. To communicate with the CAP National Headquarters Aerospace Education team, contact ae@capnhq.gov

Stay attuned to CAP AE Quarterly Newsletters and monthly e-Newsbriefs by signing up for convenient notification service at http://www.capmembers.com/aerospace_education/stay_informed/ae_newsbriefs.cfm.

If you would like to receive an automatic notification whenever new information is added to CAP's "AE: What's New?" page, go to www.capmembers.com/ae and click "AE: What's New?" Go to page bottom and follow the instructions.

January 2013 - Happy New Year!

HOT NEWS AND OPPORTUNITIES...

- 1. 19th Annual Space Exploration Educators Conference (SEEC)**– K-12 educators, as well as others with an interest in space education for young people, should try to attend the SEEC held **February 7-9, 2013**, at Space Center Houston in Houston, Texas. To find out about registration and hotel information, visit <http://www.spacecenter.org/teachersseec.html>.
- 2. CAP Unit Air Force Association AE Grant Recipients Announced-** Due to the generous financial support of the AFA, 20 CAP units have received \$250 grants to promote STEM subjects & careers. A very competitive grant selection process is demonstrating a sense of enthusiasm toward the promotion of aerospace education in CAP units and schools. CAP Aerospace Education Officers and educator members across the country are initiating quality programs to enhance science, technology, engineering, and math (STEM), with a focus on aerospace, in their units, schools and youth organizations. CAP is very appreciative to the AFA for the continuous support of CAP's AE initiatives. To view the winter quarter unit grant recipients, click [here](#).
 - **CAP EDUCATOR GRANTS DEADLINE FOR SPRING 2013** - The next AFA grant cycle is for [educators](#). Click on and complete the application for **educators** by March 31, 2013. For info: afa@capnhq.gov. (See associated photos at the end of this document.)
- 3. Air Force Association Cyber Security News and Updates** - Check out the great cyber information in the AFA's CyberSentinel publication, as well as the current status of the 2013 CyberPatriot program that had 1225 teams participating to try to earn a shot at the National Championship March 14-15 in National Harbor, MD. www.uscyberpatriot.org
- 4. NEW JANUARY 2013 LISTINGS!** Look for the latest offerings on NASA TV – The January NASA Television Education File Schedule (beginning January 1st) can be found at <http://www.nasa.gov/audience/foreducators/topnav/schedule/index.html>. NASA TV's main site can be located at <http://www.nasa.gov/multimedia/nasatv/index.html>.

5. **NEW! NASA Internships and Academies Listed on Ohio Space Grant Consortium Site** – Find out about all of the Internships offered by NASA as well as other opportunities by visiting <http://www.osgc.org/internship.html>.
 6. **Keeping the Wheels Turning: Registration Open for 20th Annual NASA Great Moonbuggy Race** – The Great Moonbuggy Race will be held at the U.S. Space and Rocket Center in Huntsville, Alabama, on **April 26-27, 2013**. This race challenges high school, college, and university students around the world to build and race fact, lightweight “moonbuggies” of their own design. Registration for U.S. teams closes **February 4**. For complete rules and to register, visit <http://moonbuggy.msfc.nasa.gov>.
 7. **Great New Book! – Mousetronaut: Based on a (Partially) True Story** – This book is a heartwarming picture book tale of the power of the small, from bestselling author and retired NASA astronaut Commander Mark Kelly. This book was inspired by the “mice-tronauts” that were flown aboard space shuttle Endeavour in 2001. Paula Wiseman Books: ISBN13: 9781442458246.
 8. **Satellite Tool Kit (STK) for the Classroom** – Analytical Graphics, Inc. (AGI) is offering the leading satellite software package to CAP’s members at no cost. This program is an awesome program to educate adults and youth about the awesome work of satellites. For licensing and to receive your disk, contact Dr. Jeff Montgomery at jmontgomery@capnhq.gov. Review more information about [STK and CAP’s aligned educational implementation initiatives](#).
- New Licensing Procedure Makes Using STK Easier Than Ever** – This new procedure will offer every CAP member (cadet, senior member, or teacher member) the opportunity to use STK anywhere, anyplace, anytime. A member can log in to AGI from any computer anywhere and begin using STK. So, members can use STK at the squadron, in the classroom, or at home. You can also obtain multiple licenses for your squadron or classroom setting. To read the new procedures and find out how easy the new process is, go to www.capmembers.com/ae and click on the “[AE: What’s New?](#)” link. Scroll down to “Other Announcements” and click on the second bullet to find out about this new guidance. Check out more info about STK [HERE](#).
9. **New Schedule! Satellite Tool Kit (STK) Users’ Conference Tour Presentations Available**– Analytical Graphics, Inc. (AGI), makers of STK, coordinated a spring and summer tour to provide STK training in locations across the country. The one-day free training tour led participants to a better understanding of how to use the STK software. For more information, visit <http://www.agi.com/training/#12>.
 10. **AFA Museum Initiative---Link to AEX Culmination Activities**- The AFA is trying to locate aviation and/or space museums around the country with which to partner in conducting educational outreach programs to promote STEM subjects and careers. CAP is partnering with the AFA to provide educational products and programs to museums wishing to become involved in youth outreach initiatives. The AFA AE Grants for CAP Units and Educators are being used often times to fund a trip to and educational event at an aviation museum. Scheduling a museum trip as the culminating 2-hour event requirement for the [Aerospace Education Excellence \(AEX\) program](#) is always a very effective way to align CAP’s thematic units and historic aviation educational products with the displays at historical aviation museums. For more information, check out the [AFA Museum Initiative](#) link at www.capmembers.com/afa or contact afa@capnhq.gov with information about a museum near you that might be interested.
 11. **Join CAP AE on Facebook!** – Keep up with the latest information and hottest links in AE by going to CAP’s AE FACEBOOK page at <http://www.facebook.com/pages/CAP-Aerospace-Education/160129457350501>.

- 12. CAP Partnership With Academy of Model Aeronautics (AMA)** – The AMA and CAP have a synergistic partnership initiative to promote model aeronautics to youth. Go to <http://www.youtube.com/watch?v=3XJa2naDa5Q> to watch an 8-minute video clip which has a nice introduction to the history of CAP, along with a brief explanation of CAP's three missions near the end of the video. **AMA is offering a FREE membership to CAP cadets** (under the age of 19), as well as access to the many clubs and experts in model aeronautics available to assist cadets and units in furthering the model aeronautics experience. To receive the free membership and find out more about what the AMA club nearest you has to offer, visit the AMA website at <http://www.modelaircraft.org/membership/clubs.aspx>.
- 13. FREE AOPA Memberships for CAP Cadets and Other Youth** - AOPA (Aircraft Owners and Pilots Association) "AV8RS" is a youth membership that is free to teens aged 13 - 18. Membership includes a digital subscription to *Flight Training* magazine, access to members-only content on aopa.org, special AV8RS social communities through Facebook, YouTube, Twitter, and tumblr, a dedicated AV8RS blog, opportunities to win flight training scholarships, and more! For more, visit www.aopa.org/av8rs.
- 14. Current Events on NATCAP Aerospace Daily** – The CAP National Capitol Wing in Washington, D.C. has a website that keeps up-to-date events concerning aviation and space on the following link: <http://paper.li/NatCapWing/aerospace>.
- 15. STARBASE Academies Provided Class Sets of CAP AE Materials!**- DoD STARBASE Academies across the nation are provided class sets of AE materials that embed a Drug-free Awareness message to all classes attending the academies, courtesy of the CAP AE and Drug Demand Reduction Program. Also, in an effort to perpetuate the STARBASE STEM focus for classes when they return to their schools, the CAP has partnered with STARBASE to provide AE products and programs to the teachers in the school systems near the academy. For more information, contact sb@capnhq.gov and/or check out the STARBASE link at www.capmembers.com/sb.
- 16. Know a Teacher or Leader of a Youth Organization Who Could Benefit from a CAP Aerospace Education Membership (AEM)?**- Please share information found at www.capmembers.com/ae with those interested in promoting STEM subjects and careers to K-12 youth across our country. With over 30 free K-12 products and programs, to include the unique Teacher Orientation Program (TOP) Flight, this special category of membership requires no meetings, no uniforms, and no progression in rank---only an interest in inspiring youth toward aerospace! For an 11-minute video explanation of the AEM program, go to the AEO Resources link at www.capmembers.com/ae where the AEM video is at the bottom of the page. To join online, educators can go to www.capmembers.com/joinaem. **(Civil Air Patrol members and teachers: Join hands with your area AFA chapter wherein AFA chapters can offer complimentary AE (teacher) memberships to perpetuate the AFA AE mission using CAP's aerospace and cadet programs. To find an AFA chapter near you, go to www.afa.org and click on the top "chapters" link and then select your state to find connections to CAP, AFA, JROTC, and ROTC groups.)**
- 17. Air Force Association (AFA) Opportunities for CAP** - To find out all of the opportunities for grants and awards provided CAP members by the Air Force Association, click on the AFA Partnership link on the CAP AE Website at www.capmembers.com/afa. CAP, in return, provides complimentary memberships and Teacher Orientation Program (TOP) Flights to AFA State and Chapter Teachers of the Year and a special sponsorship opportunity for other teachers working with local AFA Chapters. CAP members are encouraged to become members of their local AFA Chapters to synergistically promote aerospace education throughout our nation.

18. AFA's CYBERVILLE Game! – The Air Force Association's Facebook cyber game called "CyberVille" can be found by logging on to Facebook, and then navigating in a browser to <http://apps.facebook.com/cyberville/>. This game uses strategy and a quick hand on the button to repel waves of ugly make-believe cyber attackers who try to hack cell phone systems, bank accounts, and the local electric company. The game does a great job at a concept level of showing how pervasive cyber systems are, and how much is at risk if we don't practice cyber security. CyberVille is also designed to draw a broad audience to this STEM program, as well as offer the opportunity to learn more about CyberPatriot by following a link to the AFA website www.afa.org.

19. NASA Kids' Club Games and Activities – The NASA Kids' Club has recently added new games and activities just in time for summer's end and preparation for honing school skills! See what is available by visiting <http://www.nasa.gov/audience/forkids/kidsclub/flash/index.html>.

20. Student Competition for Real-World Learning in STEM Concepts – Toshiba/NSTA ExploraVision, the world's largest science competition, brings real-world learning together with problem-solving, critical thinking, collaboration, and recognition to win great prizes. This competition is for grades K-12 and encourages students to think about what today's inventions will look like tomorrow. To find out more, visit <http://exploravision.org>.

21. Perennial Math Online Competition – Check out this online math competition for grades 3-8 at www.perennialmath.com.

22. NASA OPPORTUNITIES for the education community:

- **Free Smithsonian's Stars Lecture Series** – Visit the Smithsonian for a series of 10 lectures by Smithsonian researchers who are exploring the sun, the moon, planets, stars, galaxies, and the universe. Each lecture begins at 5:15 p.m. and is followed by a question-and-answer session. A Discovery Station activity will take place at 4 p.m. prior to each lecture. For more information about the Smithsonian's Stars Lecture Series, visit <http://airandspace.si.edu/events/lectures/stars/index.cfm>.
- **Registration Open for NASA Explorer Schools Project** – Registration is open for educators of grades 4-12 to join the NASA Explorer Schools project. NES provides a forum for accessing free lessons, student engagement activities, and professional development opportunities centered on NASA missions and science, technology, engineering, and mathematics topics and careers. Just complete the online NES registration form to begin. For more information, visit the NES website at <http://explorerschools.nasa.gov>.
- **NASA's ISSLive! Website** – *ISSLive!* is an innovative, interactive Web-based initiative that provides a novel way to learn about the International Space Station. To find out more, visit <http://spacestationlive.jsc.nasa.gov>.
- **Download the New "Satellite Insight" Game** – "Satellite Insight" for iPhone and other Apple iOS devices is now available on iTunes. It's free and challenging. To find out more, visit <http://spaceplace.nasa.gov/iOS/>.
- **WARNING!!!** Recently, an air pressurized paper rocket launcher being used by an educator failed. This launcher is described in NASA's Rockets Educator Guide, publications EG-2011-11-223-KSC, pp. 86-90 and EG-2008-05-060-KSC, pp. 86-90. NASA completed an engineering investigation into the failure and determined that the launcher, or design equivalents, should not be used. NASA has removed the launcher design from its website and its education curriculum. Individuals and organizations should immediately discontinue use of the launcher published in the referenced NASA publications. The point of contact for additional information is James Stofan, Deputy Associate Administrator for Education Integration at nasaedpartners@nasa.gov.

- **What's New At NASA's Space Place** – Space Place (K-6 educators) has a new look and new features. Look for: resources available in Spanish; careers of passionate NASA scientists and engineers; image gallery; new activities; “special days” information and activities; and more...To find out more, visit <http://spaceplace.nasa.gov/>.
- **Astronaut Don Pettit Demonstrates Science Concepts in “Science off the Sphere” Video Series** – NASA and the American Physical Society, or APS, have entered into a partnership to share unique videos from the International Space Station with students, educators, and science fans around the world. NASA astronaut Don Pettit will use everyday objects from Earth to demonstrate physics through the “Science off the Sphere” video series. For more information and to view the science demonstrations, visit <http://www.physicscentral.com/sots>.
- **New Content on NASA's Math and Science @ Work Website** – This project provides activities teachers can download for use in high school advanced-placement mathematics and science courses. There are more than 30 activities that will engage students in physics, chemistry, biology, calculus and statistics while giving them insight into NASA's programs, projects and careers. To download the free Math and Science @ Work activities, visit <http://www.nasa.gov/education/mathandscience>.
- **NASA Students on Facebook: New Page** – The NASA Students on Facebook site has moved to a new page within Facebook. To receive daily updates on Facebook, please visit the page the hit the like button located toward the top of the page. The student Facebook page highlights opportunities open to students in grades 9-12 and above and broadcasts information regarding feature articles, podcasts, videos, and more that might be of interest to high school and college groups. If you have the old site bookmarked, that link will no longer contain updated information. Please change to the new address: <http://www.facebook.com/pages/NASA-Students-at-www.nasa.gov/176813089042984?v=wall>.

MORE AE OPPORTUNITIES AND INFO.....

23. CAP Aerospace Education Members (AEMs) and Senior Members who are teachers can take to the skies! Find the key to inspiring your students to want to learn more in your classroom this year! Take a CAP Teacher Orientation Program (TOP) Flight in a CAP airplane. Contact Judy Stone at jstone@capnhq.gov to connect YOU with your state's volunteer Director of Aerospace Education (DAE) who can help make the [TOP Flight](#) a reality for you! Experience this unique opportunity that will lift your spirits and your mind toward innovative ways to inspire and motivate your students toward science, technology, engineering and math (STEM) subjects and careers!

24. NEED AE ASSISTANCE? Contact a CAP Aerospace Education Officer (AEO) to Assist YOU in AE Initiatives!- CAP has a current roster of each state (wing) volunteer Director of Aerospace Education (DAE) and volunteer Regional Deputy Chief of Staff/AE with contact information for assistance in the implementation of AE activities with cadets, youth in schools and organizations, and teachers. The volunteer AE Officer roster is found at the bottom of the page at www.capmembers.com/ae. Air Force Association members, and other organizational persons interested in promoting AE in their communities, should work with their area DAE who will direct them to local AEOs for assistance! For any AEO within CAP who wishes to assist in AE initiatives, contact the National AE Advisor to the National Commander, Lt Col Mike McArdle, at michael.mcardle@att.net. To work with any AE staff member of the National Headquarters, located at Maxwell Air Force Base, contact ae@capnhq.gov.

- 25. CAP Aerospace Education Offers CAP-TERS Program** – CAP satellite imaging program aligned with geography, as well as the information on airports found in Module 2 of Aerospace Dimensions. The Civil Air Patrol Teachers Educational Remote Sensing program (CAP-TERS) was developed in an effort to combine satellite imagery, an imagery viewer, and lesson plans into a single location for use in any educational setting. This program also offers teachers or Aerospace Education Officers a viable tool to teach geography and aerospace education in an interesting and relevant hands-on format. To find out about the program, go to the “**AE: What’s New?**” link on the AE Website, www.capmembers.com/ae.
- 26. College- level AFROTC Arnold Air Society (AAS) and Silver Wings (SW) teams use CAP AE programs to mentor students in their STEM Outreach Program-** The AAS/SW Joint National Project this year is STEM Outreach. *This program is endorsed and supported by the Air Force Association and CAP, so AFA chapters and/or CAP units should try to connect with these dynamic college students to help them promote the AE and STEM mission in AFA and CAP!* Using the free curriculum and educational materials provided by CAP, these exemplary college students are making a difference in the lives of young students all across America working in classrooms, in community-based youth organizational programs, and even their own community events to share the principles of flight, rocketry, and other aerospace concepts with elementary students. Their purpose? Expose young people toward much-needed STEM career paths via engaging and exciting aerospace activities. For more information on how to connect, go to <http://arnold-air.org/aas/> and find an AAS unit or SW chapter near you. Or, go to www.afa.org and click on the chapters link at the top and then click on your state for AFA, CAP, JROTC, and ROTC connections. For more information, check out the [AAS/SW](http://www.capmembers.com/afa) link at www.capmembers.com/afa and/or contact afa@capnhq.gov.
- 27. NASA Reveals New Batch of Space Program Artifacts for Loan** – NASA is inviting eligible education institutions, museums, and other organizations to examine and request space program artifacts online. Requestors should not talk directly to NASA. To find out about eligibility and procedures to access the module, visit <http://www.nasa.gov/transition>.
- 28. Note from CAP’s Michael Murphy** – A good website to look up airports, nav aids, current weather info, as well as Sectional charts in a Google-map format where you can pan, zoom in and out, are included at <http://www.airnav.com/>. Another good aviation site is <http://www.pilotoutlook.com>.
- 29. Music and Astronomy Under the Stars** – Join Dr. Donald Lubowich, coordinator of the Astronomy Outreach Program at Hofstra University in New York, for a series of events bringing astronomy to the public. Those attending the concerts will get a glimpse of the stars. To find out more information and see a full schedule, visit http://www.hofstra.edu/Academics/Colleges/HCLAS/PHYSIC/physic_underthestars.html. Last show is October 26.
- 30. National Science Teachers Association (NSTA) Offers Many Resources at No Charge** – Check the NSTA web site for free educational offers, as well as specific offers for members of NSTA. Visit <http://www.nsta.org/> and search on the left-side menu link “NSTA Learning Center.”
- 31. Host a “From Earth to the Solar System” Exhibit** – Celebrating NASA’s Year of the Solar System, this exhibit is a collection of high-resolution images that showcase the excitement of planetary exploration. This collection is freely available to organizations worldwide to use to host their own exhibitions. Tips for the success of downloading and using these images are included on the website. For more information, visit <http://fettss.arc.nasa.gov>.

32. Link to NASA's Virtual Skies Available on CAP AE Web site – NASA has released the revised Virtual Skies program that introduces the key concepts in the world of aviation in six independent modules. Recommended for high school students and used by other educational audiences, Virtual Skies helps students acquire and employ decision-making and collaborative skills while applying principles of algebra, geometry and calculus in each of these modules. To link to this useful site, go to www.capmembers.com/ae and click on "[Lessons and Other AE Resources](#)." The link will be on the page for the "[Planes](#)" resource box.

33. NASA and You – NASA y Tu' Website – NASA and Univision Communications Inc. have launched an on-air and online initiative to help engage Hispanic students. The NASA and You website inspires Hispanic students to pursue careers in science, technology, engineering, and mathematics (STEM). The site features videos and information in both Spanish and English. The Website also includes information on educational opportunities for students. To view, visit <http://www.nasa.gov/audience/forstudents/nasaandyou/home/index.html>.

34. National Space Biomedical Research Institute – This institute focuses on the effects of long-term spaceflight on the human body and how to counter any negative effects it might have. The institute provides educators with valuable teacher activity guides on Bones and Muscles, Food and Fitness, and Sleep and Daily Rhythms. To find out more about NSBRI go to <http://www.nsbri.org>. The link can be found at <http://www.nsbri.org/Education/Materials.html>.

35. NASA Opportunities for the Education Community

- **NASA Education's Act Now page highlights upcoming NASA opportunities available for teachers and students** – Visit the website at <http://www.nasa.gov/audience/foreducators/topnav/actnow/index.html>.
- **DOWNLOAD NOW! 'Museum in a Box' Flight Science Lessons** – NASA's Aeronautics Research Mission Directorate has been busy adding to and updating nearly all the Museum in a Box lesson plans over the past few months. Currently there are 32 lessons available that span grade levels K-12. Lessons can be downloaded at <http://www.aeronautics.nasa.gov/mib.htm>.
- **Electronic Professional Network Courses** – NASA's Learning Environments and Research Network and the Georgia Institute of Technology have teamed up to create the electronic professional development network, or e-PDN, and initiative dedicated to preparing K-12 teachers to engage their students in science, technology, engineering, and mathematics, or STEM, through the use of NASA-developed learning materials and resources. Apply to one of the free courses today! Find out about the course choices and other information by visiting <http://nasaepdn.gatech.edu>.
- **NASA Education Materials Featured on the Howtosmile.org Website** – Launched by the University of California, Berkeley's Lawrence Hall of Science, the Howtosmile.org Website is an online collection of thousands of hands-on interactive science and math activities dedicated to making learning exciting and engaging for everyone. All activities are freely accessible and never require a registration or subscription. Visit this new Website at <http://howtosmile.org>.
- **Rocketry Page for Educators and Students (All Educators and Students)** – NASA Website <http://www.nasa.gov/education/rocketry> will get students and educators off the launch pad and on their way to becoming rocket scientists. Educators can find lesson plans for the classroom and keep students in-the-know with up-to-date information about NASA-supported rocketry competitions. NASA has a new DIY podcast topic module called: Rocket Science. The topic module includes 33 video clips with NASA Launch Vehicle Systems Analyst, Tristan Curry, as well as historical footage of rockets and shuttle launches, and animations. To find out how to use these resources and build your own multimedia projects, visit <http://www.nasa.gov/audience/foreducators/diypodcast/index.html>

36. MORE NASA Opportunities:

- **NASA Invites Young People to Take Virtual Space Station Spacewalks** – A new video game based on actual work astronauts performed during the course of several NASA missions is available online. To take a virtual spacewalk in the Station Spacewalk game, visit http://www.nasa.gov/multimedia/3d_resources/station_spacewalk_game.html.
- **NASA's Tool for Visualizing Distance-Rate-Time Problems** – NASA has an interactive online tool that enables students to simultaneously visualize and manipulate three linked representations of a distance-rate-time problem. The side-by-side tool format features two airplanes (each flying at a constant speed) on merging jet routes, the corresponding distance-vs.-time graphs, and the corresponding linear equations. The free classroom materials include the tool, student workbooks, assessments, teacher guides, and alignments to grades 5-9 mathematics standards for all 50 states. This is an addition to the Smart Skies mathematics investigations. Visit <http://www.smartskies.nasa.gov/flyby>.
- **New NASA Website Aims to Engage and Educate Advanced High School Students** – NASA's Math and Science @ Work project offers challenging supplemental problems based on space exploration topics. This project engages students by providing real-world applications to promote critical thinking and problem-solving while exposing students to careers in space exploration. These problems are for grades 10-12 and are available for calculus, physics, biology, chemistry, U.S. history, and human geography. Visit the Math and Science @ Work Web site at www.nasa.gov/education/mathandscience.
- **Online Training for Teaching Hands-on Engineering Activities with NASA and DESIGN SQUAD** – An online workshop has been developed for educators and after school leaders to build their skills and confidence in guiding kids through engineering activities like those found in the On the Moon Educator Guide from NASA. For more information go to <http://pbskids.org/designsquad/parentseducators/workshop/welcome.html>.
- **NASA Launches Careers Web Page** – NASA Education has launched a Webpage that serves as a starting point to learn about jobs at NASA. Visit the site to learn more about scientists, technical experts, engineers, mathematicians, physicists, accountants, astronauts, pilots, astronomers and experts in many other fields. Visit the new NASA Education Careers Webpage at <http://www.nasa.gov/education/careers>.
- **NASA Sponsors Odyssey of the Mind Long-Term Problem -- Weird Science-**
Audience: All Educators and Students- Odyssey of the Mind is an international educational program that offers creative problem-solving opportunities for students from kindergarten through college. Participants apply their creativity to solve problems that range from building mechanical devices to presenting their own interpretation of literary classics. The teams then bring their solutions to competition on the local, state and international levels. This year's NASA-sponsored problem requires teams to create and present a performance about a team of scientists on an expedition to uncover the cause of mysterious events. The performance must include a technical representation of the mysterious events, a moving backdrop that helps portray traveling and a team-created device that the scientists use on the expedition. For more information and to find dates for regional competitions, visit <http://www.odysseyofthemind.com/> or e-mail info@odysseyofthemind.com.

37. Connect with The Space Place and SciJinks through Facebook and Twitter –

>The Space Place is an extensive, content-rich Website from NASA for upper elementary-age kids and their teachers and parents, and anyone else who likes a simple, readable, fun presentation of a wide range of space and Earth science and technology topics – <http://spaceplace.nasa.gov>. (On Facebook, <http://facebook.com/nasaspacespace> and on Twitter, <http://twitter.com/nasaspacespace>.)

>SciJinks is a highly-interactive Website that provides middle-school students and audiences of all ages an amazing science education opportunity. Provided by NOAA and NASA, the web site transports visitors to the wild world of weather to learn about predicting global weather patterns –

<http://scijinks.gov>. Facebook- <http://www.facebook.com/scijinks> and Twitter- <http://twitter.com/scijinks>)

38. Lockheed Martin, the Space Foundation and SpaceClass Announced the Launch of a Strategic Online Education Collaboration Called *Orion's Path*- *Orion's Path* is an interactive lesson on SpaceClass -- the only Web-based education program using videos and virtual science labs to engage students in research being conducted for space exploration. Lesson contents meet National Learning Standards for middle school grades and use of the site is free to teachers. To sign up, go to <http://www.spacefoundation.org/education/resources/online-tools-and-programs/orions-path-online-science-lab> .

INFORMATION FOR CAP AEROSPACE EDUCATION OFFICERS (AEOs)

39. CAPP 15 and CAPP 215 online– The CAPP 15 (Aerospace Education Officers Handbook) and the CAPP 215 (AE Specialty Track) are online under the forms and publications link at www.capmembers.com. The 215 Specialty Track tests are online, as well, under CAP University (online courses and exams link).

40. CAP Aerospace Education Member (AEM) contact information – CAP Region and Wing Commanders, DCS/AEs, and DAEs in each region and wing have accessibility to the names and contact information of Aerospace Education Members in their wings and regions. We would like you to know who these outstanding people are so you can invite them to AE workshops and teacher flights and any other relevant programs that would apply to Aerospace Educators for your area. This information can be found in e-services under Member Reports and Aerospace Education links and requires permissions received from your commander.

41. CAP Teacher Orientation Program (TOP) Flights – Aerospace Education Officers: you can invite current AEMs (Aerospace Education Members), as well as new teachers to join as AEMs, to share in an exciting Teacher Orientation Program (TOP) Flight and workshop that will help them get their students excited about aerospace. Remember to keep the Wing Commander and your wing POC (usually the Director of Aerospace Education) informed and supportive of your efforts. Please contact Judy Stone at jstone@caphng.gov to discuss your plans (number of teachers flying, date, and estimated cost) prior to actual flights. For more information, go to the Teacher Orientation Program (TOP) Flights section at www.capmembers.com/ae. **NOTE: CAP pilots flying the TOP Flight missions must be commercially certified and hold a current class 2 medical.**

42. Yeager Test Information for CAP Directors of Aerospace Education (DAEs): **NOTE: Senior Members taking the Yeager test need only take and pass one of the two tests provided on the Yeager test site. The second test is for those who may need to take the test a second time to receive credit for passing.** After successfully passing the test online, CAP senior members will automatically have the accomplishment posted to his/her records and the Yeager Certificate will be available for download as a pdf. (NOTE: A Form 127 and CAPC 20 are only needed if the exam is taken with pencil/paper.) This process streamlines the CAP Yeager test process and makes the reporting easier for all concerned. **DAEs can track which wing senior members have taken and passed the online test by logging in at e-services and going to “Test Reports” in the left column of the menu. This link is restricted to those who have specific permissions assigned to CAP region or wing HQ. If a DAE is not assigned to the wing HQ, he/she should contact the wing commander and ask for specific permissions via the Web Security Administrator.** Remember: This system has tracked the Yeager Award since March 2004, so all of the senior members who took the Yeager on paper before then were not tracked.

MORE AE INFORMATION FROM CAP.....

- 43. CAP Aerospace Education materials can be ordered online!** AEMs and AEOs can order the tools needed to promote the AE program in their local communities and schools. AEOs can receive a complete set of AE materials for presentation to prospective educators. **Order one copy** of each our materials via our online ordering system. Sign in at CAP's e-services: <https://www.capnhq.gov>. Look on the far right column and find CAP Materials and click Submit Order. Select AE Materials from the drop down menu. Fill out the order form and the mailroom will process and fill your order. If an item is out of stock, check back soon, as new printing is being done at this time. If you need any further assistance, please contact ae@capnhq.gov.
- 44. AEX Certificate Template is on the AE web site at www.capmembers.com/ae and click on the appropriate AEX link! 2012 Aerospace Education Excellence (AEX) Award Program-** Make sure that YOUR unit or classroom participates and completes the AEX Award Program to receive a classroom/unit plaque and participant certificates. Any CAP unit or any K-12 teacher who is a CAP member can participate! Apply easily and electronically in CAP e-services. An email confirmation and AEX books will arrive soon after. To receive your unit or classroom plaque and participant certificates, simply fill out the electronic report on line upon completion of the program. To apply and report online, go to <https://www.capnhq.gov> and enter e-services with your password or follow the "first time user" steps to enter e-services. For assistance, contact Debbie Dahl at ddahl@capnhq.gov.

Thanks to EACH of you for promoting aerospace education to youth and the general public all across our great nation!

Sincerely, the CAP NHQ AE Team

CAP Applauds the **Air Force Association**
for Their Continuing Generous Sponsorship of
AE Grants for CAP Units and Teacher Members
to Conduct Projects That Promote AE/STEM Education Nationwide

With the aid of a \$250 AFA AE Grant for CAP Units, Aerospace Education Officer, 1Lt Pamela Bourke, spearheaded the effort to partner 49 members of the Waukesha Composite Squadron with the Fox Valley Technical College, the FAA, Flight for Life, the Waukesha Fire Department, and the Waukesha County Airport manager to conduct the second annual Youth Aviation Adventure at the Waukesha County Airport - Crites Field. 330 scouts were escorted between nine different stations run by local aviation enthusiasts and all earned their Aviation Badge. The scouts learned about a variety of aviation careers, participated in hands-on activities, and got a behind-the-scenes view of an aviation facility. What an awesome partnership endeavor! Collaborations, such as this mentoring program, youth across America will learn to soar in life!
