Meals: Dining Hall on base—very reasonable

Many fast food and dining options on base and just off base

North Central Region Staff College

June 3-8, 2012

Offutt AFB, NE

Omaha, NE

Region Staff College is a formal in-residence course held at Offutt AFB, NE. This course is required for completion of Level IV and allows CAP Officers a chance to better prepare them to fulfill the duties and responsibilities that are associated with command and staff positions at Squadron level and above.

Some of the things you will have an opportunity to learn about are: leadership styles and skills, management theories and working with volunteers. We also work on communication skills-both written and spoken. You will deliver a 10 minute speech on a CAP related topic. You will also be given information on problem-solving, core values and planning CAP related events.

All of this learning will be done in a group setting. Some things will be done in a large group setting and much will be done in a smaller, seminar group setting.

The best part of Region Staff College: getting to meet all the other people from the other wings and regions. You will be able to network with these people and make lifelong friends! Best of all you will have fun!!!
